

# KiDA Block

## Social Group

Multi-disciplinary approach to social development

### Social Development

- The KiDA Block is an interactive, “action-packed” group program. Our unique, blended therapy approach helps kids build life, social and motor skills alongside peers.
- Our advanced sensory gym, with cutting-edge therapeutic equipment, provides the perfect setting for fun and engaging development.
- Groups are led by licensed and experienced Occupational Therapists and Speech Language Pathologists, who assess the individual needs and goals of each child. ABA Therapists are also available as needed.

***Call us to arrange a tour of KiDA's  
state-of-the-art facility!***

### Skill-Building

### Play-based Therapy

- 60 Minute Sessions
- Small Groups
- School age kids
